NOTE 1 - ORGANIZATION

The Carbon Collective Climate Solutions U.S. Equity ETF and Carbon Collective Short Duration Green Bond ETF (each, a "Fund," and collectively, the "Funds") are diversified series of Tidal Trust II (the "Trust"). The Trust was organized as a Delaware statutory trust on January 13, 2022. The Trust is registered with the Securities and Exchange Commission ("SEC") under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company and the offering of each Fund's shares ("Shares") is registered under the Securities Act of 1933, as amended. The Trust is governed by the Board of Trustees (the "Board"). Tidal Investments LLC ("Tidal Investments" or the "Adviser"), a Tidal Financial Group company, serves as investment adviser to the Funds. Carbon Collective Investing, LLC ("Carbon Collective" or a "Sub-Adviser"), serves as investment sub-adviser to each Fund and Artesian Capital Management LP ("Artesian Capital" or a "Sub-Adviser") (collectively the "Sub-Advisers"), serves as a sub-adviser for the Carbon Collective Short Duration Green Bond ETF. Each Fund is an investment company and accordingly follows the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 "Financial Services – Investment Companies". The Carbon Collective Climate Solutions U.S. Equity ETF commenced operations on September 19, 2022. The Carbon Collective Short Duration Green Bond ETF commenced operations on April 11, 2024.

The investment objective of the Carbon Collective Climate Solutions U.S. Equity ETF is to seek to achieve long-term capital appreciation. The investment objective of the Carbon Collective Short Duration Green Bond ETF is to seek maximum total return, consistent with preservation of capital and prudent investment management.

NOTE 2 – SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies consistently followed by the Funds. These policies are in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP").

A. Security Valuation. Equity securities, which may include Real Estate Investment Trusts ("REITs"), that are listed on a securities exchange, market or automated quotation system for which quotations are readily available (except for securities traded on the NASDAQ Stock Market, LLC ("NASDAQ")), including securities traded over-the-counter, are valued at the last quoted sale price on the primary exchange or market (foreign or domestic) on which they are traded on the valuation date (or at approximately 4:00 p.m. EST if a security's primary exchange is normally open at that time), or, if there is no such reported sale on the valuation date, at the most recent quoted bid price or mean between the most recent quoted bid and ask prices for long and short positions. For a security that trades on multiple exchanges, the primary exchange will generally be considered the exchange on which the security is generally most actively traded. For securities traded on NASDAQ, the NASDAQ Official Closing Price will be used. Prices of securities traded on the securities exchange will be obtained from recognized independent pricing agents each day that the Funds are open for business.

Debt securities are valued by using an evaluated mean of the bid and ask prices provided by independent pricing agents. The independent pricing agents may employ methodologies that utilize actual market transactions (if the security is actively traded), broker-dealer supplied valuations, or other methodologies designed to identify the market value for such securities. In arriving at valuations, such methodologies generally consider factors such as security prices, yields, maturities, call features, ratings and developments relating to specific securities.

Under Rule 2a-5 of the 1940 Act, a fair value will be determined by the Valuation Designee (as defined in Rule 2a-5) in accordance with the Pricing and Valuation Policy and Fair Value Procedures, as applicable, of the Adviser, subject to oversight by the Board. When a security is "fair valued," consideration is given to the facts and circumstances relevant to the particular situation, including a review of various factors set forth in the Adviser's Pricing and Valuation Policy and Fair Value Procedures, as applicable. Fair value pricing is an inherently subjective process, and no single standard exists for determining fair value. Different funds could reasonably arrive at different values for the same security. The use of fair value pricing by a fund may cause the net asset value ("NAV") of its shares to differ significantly from the NAV that would be calculated without regard to such considerations.

As described above, the Funds utilize various methods to measure the fair value of its investments on a recurring basis. U.S. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of inputs are:

- Level 1 Unadjusted quoted prices in active markets for identical assets or liabilities that the Funds have the ability to access.
- Level 2 Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument on an inactive market,

Carbon Collective ETFs

January 31, 2025 (Unaudited)

prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available; representing the Funds' own assumptions about the assumptions a market participant would use in valuing the asset or liability and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following is a summary of the inputs used to value each Fund's investments as of January 31, 2025:

Carbon Collective Climate Solutions U.S. Equity ETF

Investments		Level 1	Level 2	Level 3	_	Total
Common Stocks	\$	30,950,313	\$ —	\$ -	- \$	30,950,313
Real Estate Investment Trusts		107,558	_	_	_	107,558
Money Market Funds		38,985				38,985
Total Investments	<u>\$</u>	31,096,856	\$	\$	- \$	31,096,856

Carbon Collective Short Duration Green Bond ETF

Investments	 Level 1	Level 2	Level 3	Total
Corporate Bonds	\$ _	\$ 15,011,833	\$\$	15,011,833
Money Market Funds	 1,045,412			1,045,412
Total Investments	\$ 1,045,412	\$ 15,011,833	<u>\$</u>	16,057,245

Refer to the Schedule of Investments for further disaggregation of investment categories.

B. Federal Income Taxes. Each Fund has elected to be taxed as a regulated investment company ("RIC") and intends to distribute substantially all taxable income to its shareholders and otherwise comply with the provisions of the Internal Revenue Code applicable to RICs. Therefore, no provision for federal income taxes or excise taxes has been made.

In order to avoid imposition of the excise tax applicable to RICs, each Fund intends to declare as dividends in each calendar year at least 98% of its net investment income (earned during the calendar year) and at least 98.2% of its net realized capital gains (earned during the twelve months ended October 31) plus undistributed amounts, if any, from prior years. As a registered investment company, each Fund is subject to a 4% excise tax that is imposed if a Fund does not distribute by the end of any calendar year at least the sum of (i) 98% of its ordinary income (not taking into account any capital gain or loss) for the calendar year and (ii) 98.2% of its capital gain in excess of its capital loss (adjusted for certain ordinary losses) for a one year period generally ending on October 31 of the calendar year (unless an election is made to use the Funds' fiscal year). The Funds generally intend to distribute income and capital gains in the manner necessary to minimize (but not necessarily eliminate) the imposition of such excise tax. The Funds may retain income or capital gains and pay excise tax when it is determined that doing so is in the best interest of shareholders. Management evaluates the costs of the excise tax relative to the benefits of retaining income and capital gains, including that such undistributed amounts (net of the excise tax paid) remain available for investment by the Funds and are available to supplement future distributions. Tax expense is disclosed in the Statements of Operations, if applicable.

As of January 31, 2025, the Funds did not have any tax positions that did not meet the threshold of being sustained by the applicable tax authority. Generally, tax authorities can examine all the tax returns filed for the last three years. The Funds identify their major tax jurisdiction as U.S. Federal and the Commonwealth of Delaware; however, the Funds are not aware of

- any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits on uncertain tax positions as income tax expense in the Statements of Operations.
- C. Securities Transactions and Investment Income. Investment securities transactions are accounted for on the trade date. Gains and losses realized on sales of securities are determined on a specific identification basis. Discounts/premiums on debt securities purchased are accreted/amortized over the lives of the respective securities using the effective interest method. Dividend income is recorded on the ex-dividend date. Dividends received from REITs generally are comprised of ordinary income, capital gains, and may include return of capital. Interest income is recorded on an accrual basis. Other non-cash dividends are recognized as investment income at the fair value of the property received. Withholding taxes on foreign dividends have been provided for in accordance with the Funds' understanding of the applicable country's tax rules and rates.
- D. Distributions to Shareholders. Distributions to shareholders from net investment income, if any, for the Carbon Collective Climate Solutions U.S. Equity ETF are declared and paid at least annually. Distributions to shareholders from net investment income, if any, for the Carbon Collective Short Duration Green Bond ETF are declared and paid at least monthly. Distributions to shareholders from net realized gains on securities, if any, for the Funds normally are declared and paid on an annual basis. Distributions are recorded on the ex-dividend date.
- E. Use of Estimates. The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increases and decreases in net assets from operations during the reporting period. Actual results could differ from those estimates.
- F. Share Valuation. The NAV per share of each Fund is calculated by dividing the sum of the value of the securities held by the Fund, plus cash or other assets, minus all liabilities by the total number of shares outstanding for the Fund, rounded to the nearest cent. Fund shares will not be priced on the days on which the NASDAQ is closed for trading.
- G. Guarantees and Indemnifications. In the normal course of business, the Funds enter into contracts with service providers that contain general indemnification clauses. The Funds' maximum exposure under these arrangements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the Funds expect the risk of loss to be remote.
- H. Illiquid Securities. Pursuant to Rule 22e-4 under the 1940 Act, the Funds have adopted a Board-approved Liquidity Risk Management Program (the "Program") that requires, among other things, that each Fund limit its illiquid investments that are assets to no more than 15% of the value of the Fund's net assets. An illiquid investment is any security that a Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. If a Fund should be in a position where the value of illiquid investments held by the Fund exceeds 15% of the Fund's net assets, the Fund will take such steps as set forth in the Program.

NOTE 3 - PRINCIPAL INVESTMENT RISKS

Climate Change Consideration Risk (Carbon Collective Climate Solutions U.S. Equity ETF Only). Applying climate change and other filters to the investment process may exclude securities of certain issuers for non-investment reasons and therefore the Fund may forgo some market opportunities available to funds that do not use these criteria. As a result, at times, the Fund may underperform funds that are not subject to similar investment considerations. Additionally, the Fund will be more susceptible to events or factors affecting market segments that are focused on climate change solutions.

Equity Market Risk (Carbon Collective Climate Solutions U.S. Equity ETF Only). The equity securities held in the Fund's portfolio may experience sudden, unpredictable drops in value or long periods of decline in value. This may occur because of factors that affect securities markets generally or factors affecting specific issuers, industries, or sectors in which the Fund invests. Common stocks, such as those held by the Fund, are generally exposed to greater risk than other types of securities, such as preferred stock and debt obligations, because common stockholders generally have inferior rights to receive payment from issuers.

General Market Risk (Carbon Collective Climate Solutions U.S. Equity ETF Only). Economies and financial markets throughout the world are becoming increasingly interconnected, which increases the likelihood that events or conditions in one country or region will adversely impact markets or issuers in other countries or regions. Securities in the Fund's portfolio may underperform in comparison to securities in the general financial markets, a particular financial market, or other asset classes, due to a number of factors, including

inflation (or expectations for inflation), interest rates, global demand for particular products or resources, natural disasters or events, pandemic diseases, terrorism, regulatory events, and government controls.

Fixed Income Risk (Carbon Collective Short Duration Green Bond ETF Only). The value of the Fund's investments in fixed-income securities will fluctuate with changes in interest rates. Typically, a rise in interest rates causes a decline in the value of fixed-income securities owned indirectly by the Fund. On the other hand, if rates fall, the value of the fixed-income securities generally increases. The Fund may be subject to a greater risk of rising interest rates due to the current period of historically low rates and the effect of potential government fiscal policy initiatives and resulting market reaction to those initiatives. In general, the market price of fixed-income securities with longer maturities will increase or decrease more in response to changes in interest rates than shorter-term securities.

High Yield Securities (Junk Bonds) Risk (Carbon Collective Short Duration Green Bond ETF Only). Securities rated below-investment-grade are often referred to as high-yield securities or "junk bonds." Investments in lower-rated corporate debt securities typically entail greater price volatility and principal and income risk. High-yield securities may be more susceptible to real or perceived adverse economic and competitive industry conditions than investment grade securities. The prices of high-yield securities have been found to be more sensitive to adverse economic downturns or individual corporate developments. A projection of an economic downturn or of a period of rising interest rates, for example, could cause a decline in high-yield security prices because the advent of a recession could lessen the ability of a highly leveraged company to make principal and interest payments on its debt securities. If an issuer of high-yield securities defaults, in addition to risking payment of all or a portion of interest and principal, the Fund by investing in such securities may incur additional expenses to obtain recovery.

Interest Rate Risk (Carbon Collective Short Duration Green Bond ETF Only). Generally, the value of fixed-income securities will change inversely with changes in interest rates. As interest rates rise, the market value of fixed-income securities tends to decrease. Conversely, as interest rates fall, the market value of fixed-income securities tends to increase. This risk will be greater for long-term securities than for short-term securities. Changes in government intervention may have adverse effects on investments, volatility, and illiquidity in debt markets. In addition, the interest rates payable on floating-rate securities are not fixed and may fluctuate based upon changes in market rates. The interest rate on a floating-rate security is a variable rate which is tied to another interest rate. Floating-rate securities are subject to interest rate risk and credit risk.

As with any investment, there is a risk that you could lose all or a portion of your principal investment in the Funds. Each Fund is subject to the above principal risks, as well as other principal risks which may adversely affect each Fund's NAV, trading price, yield, total return and/or ability to meet its objective. For more information about the risks of investing in the Funds, see the section in the Funds' Prospectus titled "Additional Information About the Funds — Principal Investment Risks."

NOTE 4 - COMMITMENTS AND OTHER RELATED PARTY TRANSACTIONS

The Adviser serves as investment adviser to the Funds pursuant to an investment advisory agreement between the Adviser and the Trust, on behalf of the Funds (the "Advisory Agreement"), and, pursuant to the Advisory Agreement, provides investment advice to the Funds and oversees the day-to-day operations of the Funds, subject to the direction and oversight of the Board. The Adviser is also responsible for trading portfolio securities for the Funds, including selecting broker-dealers to execute purchase and sale transactions, subject to the supervision of the Board. The Adviser provides oversight of the Sub-Advisers and review of the Sub-Advisers' performance.

Pursuant to the Advisory Agreement, each Fund pays the Adviser a unitary management fee (the "Investment Advisory Fee") based on the average daily net assets of each Fund as follows:

Fund	Investment Advisory Fee
Carbon Collective Climate Solutions U.S. Equity ETF	0.35%
Carbon Collective Short Duration Green Bond ETF	0.50%

Out of the Investment Advisory Fee, the Adviser is obligated to pay or arrange for the payment of substantially all expenses of the Funds, including the cost of sub-advisory, transfer agency, custody, fund administration, and all other related services necessary for the Funds to operate. Under the Advisory Agreement, the Adviser has agreed to pay, or require the Sub-Advisers to pay, all expenses incurred by each Fund except for interest charges on any borrowings, dividends and other expenses on securities sold short, taxes,

brokerage commissions and other expenses incurred in placing orders for the purchase and sale of securities and other investment instruments, acquired fund fees and expenses, accrued deferred tax liability, extraordinary expenses, and distribution fees and expenses paid by the Funds under any distribution plan adopted pursuant to Rule 12b-1 under the 1940 Act (collectively, "Excluded Expenses"), and the Investment Advisory Fees payable to the Adviser. The Investment Advisory Fees incurred are paid monthly to the Adviser. Investment Advisory Fees for the six-months ended January 31, 2025 are disclosed in the Statements of Operations.

The Sub-Advisers serve as investment sub-adviser to the Funds, pursuant to a sub-advisory agreement between the Adviser and each Sub-Adviser with respect to the Funds (the "Sub-Advisory Agreements"). Pursuant to the Sub-Advisory Agreements, the Sub-Advisers are responsible for the day-to-day management of each Fund's portfolio, including determining the securities purchased and sold by the Funds, subject to the supervision of the Adviser and the Board. The Sub-Advisers are paid a fee by the Adviser, which is calculated and paid monthly, at an annual rate of 0.02% of each Fund's average daily net assets (the "Sub-Advisory Fee"). Carbon Collective has agreed to assume all of the Adviser's obligation to pay all expenses incurred by the Carbon Collective Climate Solutions U.S. Equity ETF. Artesian Capital has agreed to assume all expenses, until at such time that the Carbon Collective Short Duration Green Bond ETF generates a profit. Following this agreement, Artesian Capital and Carbon Collective, have agreed to split all expenses incurred. For assuming the payment obligation, the Adviser has agreed to pay the Sub-Advisers the profits, if any, generated by each Fund's Investment Advisory Fee, less a contractual fee retained by the Adviser. Expenses incurred by the Funds and paid by the Sub-Advisers include fees charged by Tidal (defined below), which is an affiliate of the Adviser.

Tidal ETF Services LLC ("Tidal"), a Tidal Financial Group company and an affiliate of the Adviser, serves as the Funds' administrator and, in that capacity, performs various administrative and management services for the Funds. Tidal coordinates the payment of Fund-related expenses and manages the Trust's relationships with its various service providers. As compensation for the services it provides, Tidal receives a fee based on each Fund's average daily net assets, subject to a minimum annual fee. Tidal also is entitled to certain out-of-pocket expenses for the services mentioned above.

U.S. Bancorp Fund Services, LLC, doing business as U.S. Bank Global Fund Services ("Fund Services"), serves as the Funds' sub-administrator, fund accountant and transfer agent. In those capacities, Fund Services performs various administrative and accounting services for the Funds. Fund Services prepares various federal and state regulatory filings, reports and returns for the Funds, including regulatory compliance monitoring and financial reporting; prepares reports and materials to be supplied to the Board; and monitors the activities of the Funds' custodian. U.S. Bank N.A. (the "Custodian"), an affiliate of Fund Services, serves as the Funds' custodian.

Foreside Fund Services, LLC (the "Distributor") acts as the Funds' principal underwriter in a continuous public offering of the Funds' shares.

Certain officers and a trustee of the Trust are affiliated with the Adviser. Neither the affiliated trustee nor the Trust's officers receive compensation from the Funds.

The Board has adopted a Distribution (Rule 12b-1) Plan (the "Plan") pursuant to Rule 12b-1 under the 1940 Act. In accordance with the Plan, each Fund is authorized to pay an amount up to 0.25% of its average daily net assets each year to pay distribution fees for the sale and distribution of its Shares. No Rule 12b-1 fees are currently paid by the Funds, and there are no plans to impose these fees. However, in the event Rule 12b-1 fees are charged in the future, because the fees are paid out of the Funds' assets on an ongoing basis, over time these fees will increase the cost of your investment and may cost you more than certain other types of sales charges.

NOTE 5 - SEGMENT REPORTING

In accordance with the FASB Accounting Standards Update (ASU) 2023-07, Segment Reporting (Topic 280): Improvements to Reportable Segment Disclosures, the Funds have evaluated their business activities and determined that they each operate as a single reportable segment.

Each Fund's investment activities are managed by the Adviser, which serves as the Chief Operating Decision Maker ("CODM"). The Adviser is responsible for assessing each Fund's financial performance and allocating resources. In making these assessments, the Adviser evaluates each Fund's financial results on an aggregated basis, rather than by separate segments. As such, the Funds do not allocate operating expenses or assets to multiple segments, and accordingly, no additional segment disclosures are required.

The Funds primarily generate income through dividends, interest, and realized/unrealized gains on their investment portfolios. Expenses incurred, including management fees, fund operating expenses, and transaction costs, are considered general fund-level expenses and are not allocated to specific segments or business lines.

Management has determined that the Funds do not meet the criteria for disaggregated segment reporting under ASU 2023-07 and will continue to evaluate its reporting requirements in accordance with applicable accounting standards.

NOTE 6 – PURCHASES AND SALES OF SECURITIES

For the six-months ended January 31, 2025, the cost of purchases and proceeds from the sales or maturities of securities, excluding short-term investments, U.S. government securities, and in-kind transactions were as follows:

Fund		Purchases		Sales	
Carbon Collective Climate Solutions U.S. Equity ETF	\$	6,897,637	\$	6,870,760	
Carbon Collective Short Duration Green Bond ETF		11,537,291		7,195,215	

For the six-months ended January 31, 2025, there were no purchases or sales of long-term U.S. government securities.

For the six-months ended January 31, 2025, in-kind transactions associated with creations and redemptions for the Funds were as follows:

Fund		Purchases		Sales	
Carbon Collective Climate Solutions U.S. Equity ETF	\$	1,895,281	\$	1,606,908	
Carbon Collective Short Duration Green Bond ETF					

NOTE 7 - INCOME TAXES AND DISTRIBUTIONS TO SHAREHOLDERS

The tax character of distributions paid during the six-months ended January 31, 2025 (estimated), were as follows:

Distributions paid from:	Climat	Carbon Collective Climate Solutions U.S. Equity ETF		Carbon Collective Short Duration Green Bond ETF		
Ordinary Income	\$	160,597	\$	356,489		

The tax character of distributions paid during the periods ended July 31, 2024, were as follows:

Distributions paid from:	Climat	n Collective se Solutions Equity ETF	Carbon Collective Short Duration Green Bond ETF		
Ordinary Income	<u> </u>	184.511	\$	105.973

Carbon

As of July 31, 2024, the components of distributable earnings on a tax basis were as follows:

	Collective Climate Solutions U.S. Equity ETF	Collective Short Duration Green Bond ETF	
Investments, at cost ^(a)	\$ 28,517,467	\$ 11,495,881	
Gross tax unrealized appreciation	5,734,041	87,559	
Gross tax unrealized depreciation	(5,294,640)	(87)	
Net tax unrealized appreciation (depreciation)	439,401	87,472	
Undistributed ordinary income (loss)	66,245	41,548	
Undistributed long-term capital gain (loss)			
Total distributable earnings	66,245	41,548	

Other accumulated gain (loss)(198,754)—Total distributable earnings\$ 306,892\$ 129,020

Net capital losses incurred after October 31 (post-October losses) and net investment losses incurred after December 31 (late-year losses), and within the taxable year, may be elected to be deferred to the first business day of each Funds' next taxable year. As of the prior fiscal period ended July 31, 2024, the Funds had not elected to defer any late-year or post-October losses.

As of the prior fiscal period ended July 31, 2024, the Carbon Collective Climate Solutions U.S. Equity ETF had short-term capital loss carryovers of \$108,103, and long-term capital loss carryovers of \$90,651, which do not expire. As of the prior fiscal period ended July 31, 2024, the Carbon Collective Short Duration Green Bond ETF had no short-term capital loss carryovers and no long-term capital loss carryovers.

NOTE 8 – SHARES TRANSACTIONS

Shares of the Funds are listed and traded on the NASDAQ. Market prices for the shares may be different from their NAV. The Funds issue and redeem shares on a continuous basis at NAV generally in large blocks of shares, called Creation Units. Creation Units are issued and redeemed principally in-kind for securities included in a specified universe. Once created, shares generally trade in the secondary market at market prices that change throughout the day. Except when aggregated in Creation Units, shares are not redeemable securities of the Funds. Creation Units may only be purchased or redeemed by Authorized Participants. An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a Depository Trust Company participant and, in each case, must have executed a Participant Agreement with the Distributor. Most retail investors do not qualify as Authorized Participants nor have the resources to buy and sell whole Creation Units. Therefore, they are unable to purchase or redeem the shares directly from the Funds. Rather, most retail investors may purchase shares in the secondary market with the assistance of a broker and are subject to customary brokerage commissions or fees.

Each Fund currently offers one class of shares, which has no front-end sales load, no deferred sales charge, and no redemption fee. A fixed transaction fee is imposed for the transfer and other transaction costs associated with the purchase or sale of Creation Units. The standard fixed transaction fee for the Carbon Collective Climate Solutions U.S. Equity ETF is \$500 and the Carbon Collective Short Duration Green Bond ETF is \$300, payable to the Custodian. The fixed transaction fee may be waived on certain orders if the Funds' Custodian has determined to waive some or all of the costs associated with the order or another party, such as the Adviser, has agreed to pay such fee. In addition, a variable fee may be charged on all cash transactions or substitutes for Creation Units and Redemption Units of up to a maximum of 2% of the value of the Creation Units and Redemption Units subject to the transaction. Variable fees received by the Funds, if any, are disclosed in the capital shares transactions section of the Statements of Changes in Net Assets. The Funds may issue an unlimited number of shares of beneficial interest, with no par value. All shares of the Funds have equal rights and privileges.

NOTE 9 - RECENT MARKET EVENTS

U.S. and international markets have experienced and may continue to experience significant periods of volatility in recent years and months due to a number of economic, political and global macro factors including uncertainty regarding inflation and central banks' interest rate changes, the possibility of a national or global recession, trade tensions, political events, armed conflict, war, and geopolitical conflict. These developments, as well as other events, could result in further market volatility and negatively affect financial asset prices, the liquidity of certain securities and the normal operations of securities exchanges and other markets, despite government efforts to address market disruptions. As a result, the risk environment remains elevated. The Adviser and Sub-Advisers will monitor developments and seek to manage the Funds in a manner consistent with achieving each Fund's investment objective, but there can be no assurance that they will be successful in doing so.

⁽a) The difference between book and tax-basis unrealized appreciation was attributable primarily to the treatment of wash sales and mark-to-market adjustments for passive foreign investment companies.

NOTE 10 - SUBSEQUENT EVENTS

In preparing these financial statements, management has evaluated events and transactions for potential recognition or disclosure through the date the financial statements were issued. Management has determined that there are no subsequent events that would need to be recognized or disclosed in the Funds' financial statements.

Form N-CSR Items 8-11

Item 8. Changes in and Disagreements with Accountants for Open-End Investment Companies.

There have been no changes in or disagreements with the Fund's accountants.

Item 9. Proxy Disclosure for Open-End Investment Companies.

There were no matters submitted to a vote of shareholders during the period covered by the report.

Item 10. Remuneration Paid to Directors, Officers, and Others of Open-End Investment Companies.

See Item 7(a). Under the Investment Advisory Agreement, in exchange for a single unitary management fee from the Fund, the Adviser has agreed to pay all expenses incurred by the Fund, including Trustee compensation, except for certain excluded expenses.

Item 11. Statement Regarding Basis for Approval of Investment Advisory Contract.

Not Applicable.
